

Information Kit

1. Choose a public park, green space or trail in Newmarket to clean (some target locations are listed on the back).
2. Protect yourself! Please follow the safety tips below during your cleanup.
3. Place garbage in the black bags and recycling in the clear bags.
4. When you are finished, leave your garbage bags, recycling bags, and large items by the permanent garbage receptacles in the park. If there are no permanent receptacles, please place bags by the curb or by a numbered light post of the green space or trail where they can be picked up by Town staff after the cleanup.
5. Email events@newmarket.ca to let us know what area you cleaned, where you left your garbage bags and if there are any dangerous or large items that staff need to know about.
6. We would love to see your before and after photos and videos so show us by tagging [@TownOfNewmarket](https://www.instagram.com/TownOfNewmarket) and use the hashtag **#icleanedup**.

Safety Tips and Things to Remember

- You can clean at whatever time you choose over the weekend so be sure to use your discretion when choosing a day, time and location to ensure your safety. Please do not go outside to clean in inclement weather such as thunder/lighting, high winds etc.
- Please stay off private property.
- Please avoid potential dangers such as railway tracks, rivers, river banks and road ways.
- Please do not pick up dangerous objects such as broken glass, needles, sharp objects or dead animals. If you come across any of these items please leave them where you found them and email events@newmarket.ca with their location so they can be disposed of safely.
- If an item is too large to move to the garbage can, please leave it where it is and include it's location in your follow up email about where you left your garbage.
- All children participating under the age of 12 should be supervised by an adult.

Safety Tips for Cleaning during COVID-19:

- Ensure you wear vinyl or nitrile gloves while picking up waste
- Avoiding touching your face at all times
- When you are finished cleaning, dispose of your gloves in the black garbage bag provided and immediately wash or sanitize your hands. It would be a good idea to bring hand sanitizer with you and then wash your hands when you return home.
- Please follow social distancing guidelines. If you are cleaning in a group, please ensure it is no larger than 10 people and maintain 6 feet (2 metres) between you unless you are in the same social circle.
