

July 22/11

Clock Tower update Meeting Rob P; Duayne T; Bob S; Alan Lusk;
Chris K; Esther A-B; Linda T;
Rob P brought group up to date on various tasks to be completed

Bob indicated that we may need to go "outside" to find someone specialized enough that could put together a proper package/proposal - feasibility
- Bob has spoken to a Co called "Attus" who may be able to assist with a proposal for a P3 arrangement

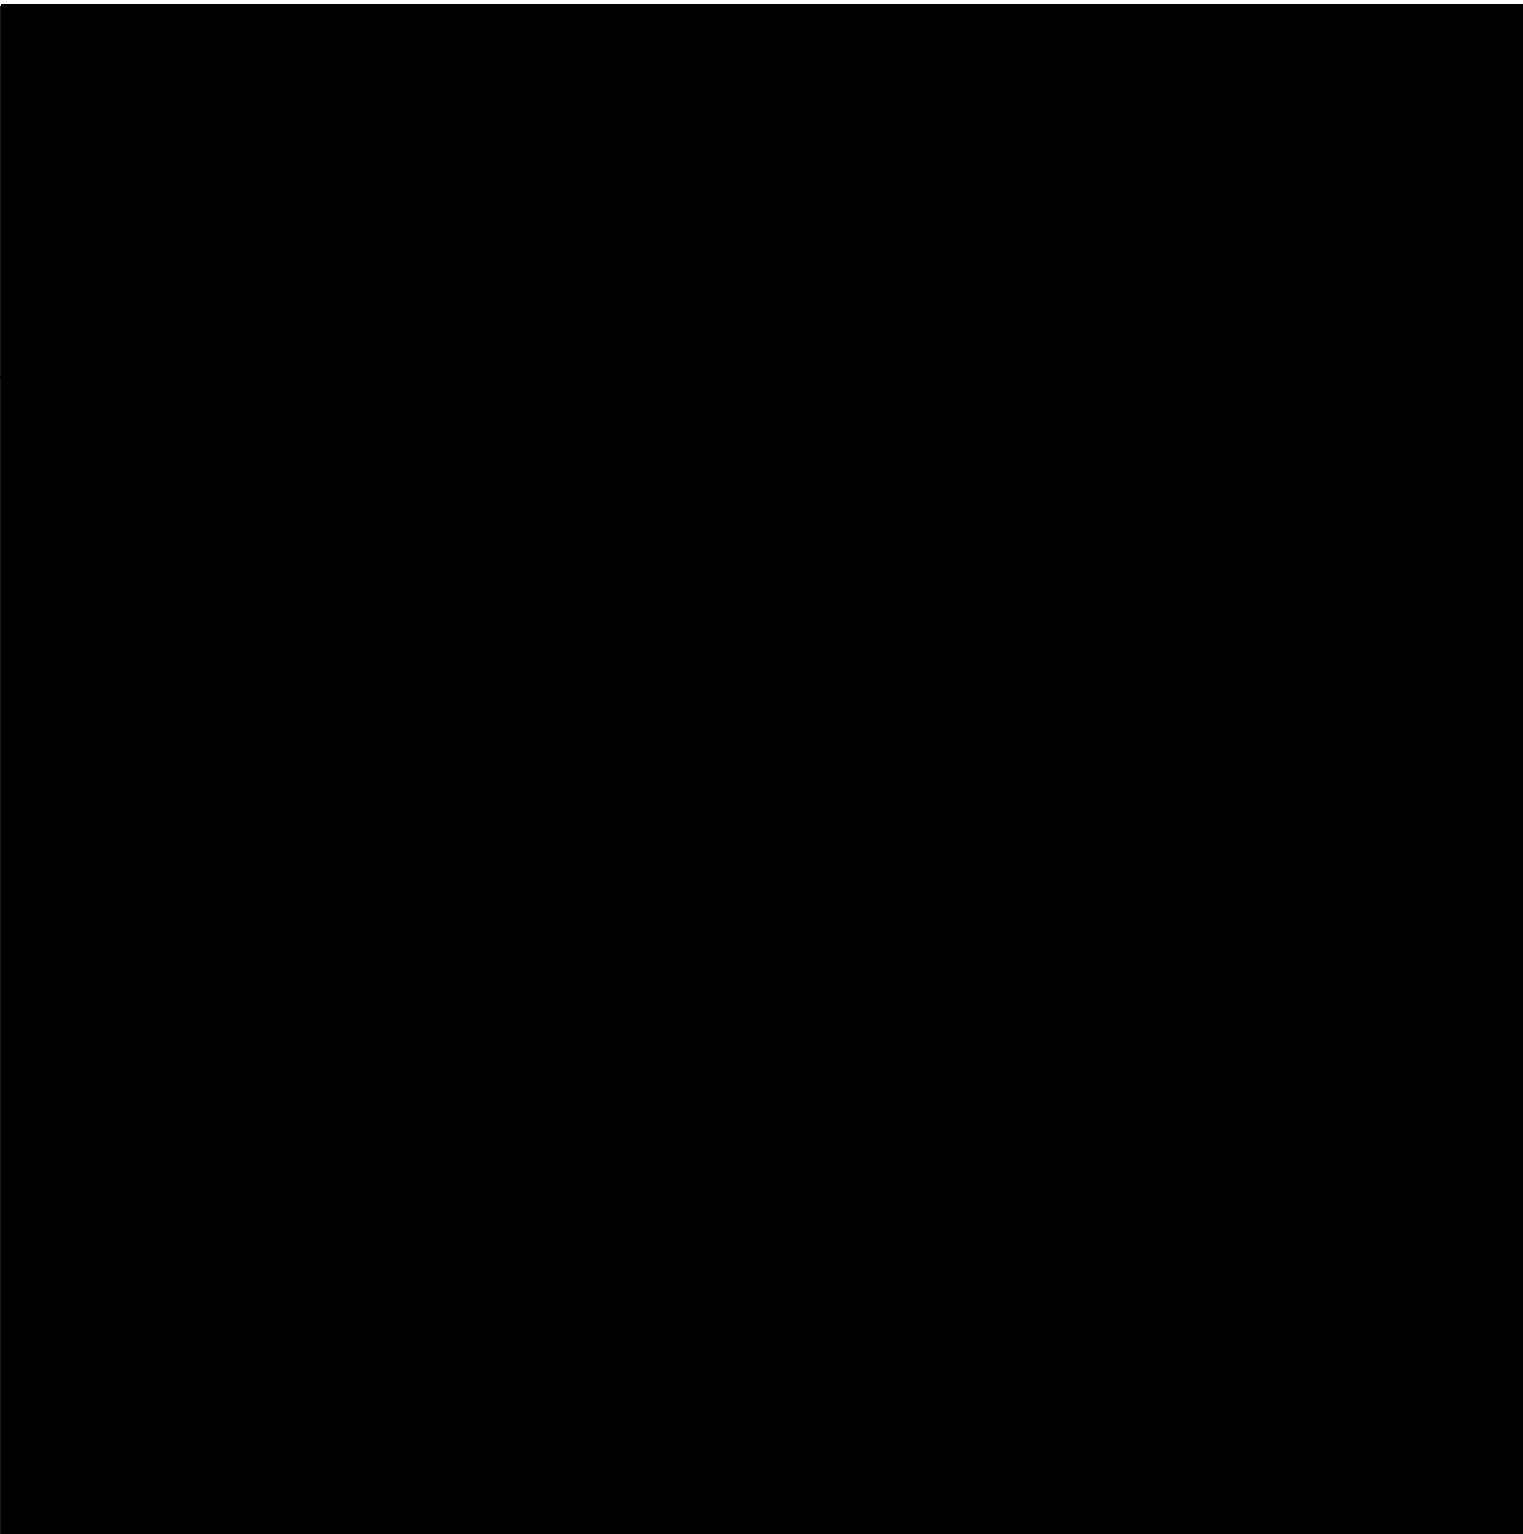

Identify Issues for Upcoming Council Meeting

① Access & Access Rights

- these issues have to be dealt with - you can't simply cut off access to the rear of buildings by plopping a building on there it means that access will be restricted/eliminated to other property owners.

② Clock Tower is designated under the Heritage Act - there is a by-law (binds to locale)
- would have to determine which components of the existing building would have to be

④ Parking issues

There's also a Heritage Conservation District Plan in place downtown - would impact adjacent neighbouring homes - need to have a proper interface b/w tall condo + smaller house
